LOCAL SELF GOVT BRANCH

Dear Mr Madhava Rao,

Ornamental Lights around the Old Public Office, etc., etc

With reference to your D O L 7488 dated the 14th April 1927, I would give you the following data with regards to the 4 items of ornamental lightsL-

1. Around the Old Public Offices

It is proposed to instal 20 lights, each of 250 c p at an estimated cost of Rs 6,197/- to take the place of the existing 11 overhead lights The royalty will be Rs 90 per light per annum and should be borne wholly by General Administration The royalty on the 11 existing overhead lights is being paid by the Bangalore City Municipality, but I think that this is a wrong allocation and all of the royalty shoul be paid by the General Administration

The estimate has been sanctioned by me under "Interior Power & Lighting", but instructions have been given that this work is not to be executed until the question of royalty has been settled

Item 2. Narasimharaj Square (Cenotaph Road)

It is proposed to instal 22 lights of 250 c p each at an estimated cost of Rs 6,897/- to take the place of 6 overhead ordinary lamps The royalty on the ornamental lights will be Rs 90 per light per annum, the royalty for 6

being borne by the Municipality and 16 should be borne by General Administration The royalty for 6 overhead lamps is being paid by the Municipality, but the Cenotaph is not properly lighted up and the Municipality should bear the additional cost of the required amount of illumination

The estimate has been sanctioned by me under Interior Power & Lighting, but have issued instructions that the work is not to be executed until the question of royalty is settled

Item 3 Post Office road, from the New Circle to the City Yalahanka Gate Circle

It is proposed to instal 14 Ornamental lights, each of 250 c p , at an estimated cost of Rs 5,745, in place of the 6 existing ordinary lights This number includes the two lights to be installed on the pillars at the new Yelahanka Cate The existing overhead lights do not give sufficient illumination, and the Municipality should pay the royalty on 7 of these lamps and the General Administration should pay the royalty on the remaining number

The estimate has been sanctioned by me under Interior Power & Lighting, but instructions have been given that the work is not to be executed until the question of royalty is settled

Item 4 Seshadri road between the two new circles

It is proposed to instal 4 ornamental lights, each of 250 c p , at an estimatec cost of Rs 1,5 , in place of the 5 existing over ca

lights These 4 ornamental lights will provide just the required amount of illumination and the Municipality should therefore bear the whole of the royalty

I have written to the President and the Municipal Commissioner asking them to agree in writing to pay the roaylty on these 4 lights and until I have received their agreement, the work will not be executed

2 When we discussed this subject in the Dewan's Office several days ago, when the Municipal President and the Commissioner were also present, I pointed out that a great many of the important streets in the City were very poorly illuminated and suggested that the Municipality pay the royalty on whatever ornamental lig t-ing units that are necessary to give the proper illumination and any units installed for additional lighting and ornamentation purposes should be borne by the General Administration and I further suggested that I fix the proportion in each particular case as they arise

3 I would be very glad if you would kindly get orders as early as possible on this royalty question so that I can proceed with the execution of the works What I have suggested is in accordance with the principle which has been for a very long time followed in Mysore City, that is, the Municipality is paying for the normal illumination necessary for each street or locality, and General Administration is paying for any extra illumination and ornamentation

SGF-PRN

Yours sincerely,

To
